PROFESSIONAL SUMMARY

Lead Technical Engineer & AI Specialist with 12+ years of software engineering expertise, specializing in architecting high-impact Android mobile applications and intelligent backend solutions. Proven track record of leveraging **Generative AI, Agentic AI, LLMs, LangChain, RAG, Spring Boot**, and **enterprise cloud platforms** to deliver scalable, production-ready ecosystems. A strategic leader and client partner adept at bridging complex technical requirements with business goals to drive innovation and exceptional digital experiences.

CORE COMPETENCIES

✓ Android Architecture & Design	✓ AI / ML & Deep Learning	✓ Team Leadership & Mentoring
✓ Jetpack Compose & Modern UI	✓ AWS Cloud & DevOps	✓ Agile / Scrum Delivery
✓ Kotlin, Java, Springboot, Python	✓ Generative AI & LLMs	✓ System Design & Scalability

TECHNICAL SKILLS

Languages	Kotlin · Java · Python · Dart · JavaScript
Android Stack	Jetpack Compose · Navigation · Data Binding · Hilt · Coroutines · Flow · DataStore · WorkManager · Room
Architecture	MVI · MVVM · MVP · Clean Architecture · SOLID Principles · Design Patterns
AI / ML	LLMs · Langchain · Prompt Engineering · Streamlit · NumPy · Pandas · Matplotlib · HuggingFace · OpenAI API · AI PDF Q&A Chatbot · AI Customer Support Agent · AI-Powered E-Commerce Recommendation Engine
Cloud & DevOps	AWS (EC2, S3, Lambda) · CI/CD (Jenkins, Circle CI) · SonarQube · Jenkins
Mobile / Cross	Native Android · Flutter (Hybrid) · libGDX (Gaming)
Testing	JUnit · Mockito · Espresso · TDD principles
Tools	Android Studio · Spring Tool Suite · IntelliJ IDEA · VS Code · Git · GitHub · Bitbucket · JIRA · Trello
APIs & Data	RESTful APIs · JSON/XML · GraphQL (basic) · SQLite · Room Database

PROFESSIONAL EXPERIENCE

Lead Software Engineer | **Nagarro** | Dec 2018 – Oct 2022 | Mar 2024 – Present

Lead Systems Engineer | **G4S IT Services Pvt. Ltd.** | Aug 2017 – Nov 2018

Senior Software Engineer | **CommDel Consulting Pvt. Ltd.** | Sep 2016 – Aug 2017

Senior Software Engineer | **Knowcross Solutions Pvt. Ltd.** | Nov 2015 – Aug 2016

NOTABLE PROJECTS

Project	Description & Impact	Tech Stack
Dubai Municipality (Govt. App)	Official smart city mobile application for Dubai Government services. Delivered with modern declarative UI and clean architecture.	Jetpack Compose, MVVM, Hilt, Kotlin, AI/ML, AI PDF Q&A Chatbot
NedBank Money (Banking)	High-availability consumer banking app for one of South Africa's largest banks; implemented secure transaction flows and biometric auth.	Java/Kotlin, MVVM, REST, Spring Boot, Biometrics, Java Backend
Amway (E-Commerce)	Global direct-selling platform supporting product discovery, order management, and distributor workflows for a multinational brand.	Android, Kotlin, AI/ML, Python, AI Customer Support Agent, AI-Powered E-commerce Recommendation System
1-800-Flowers (Gifting)	Feature-rich gifting and e-commerce app enabling personalised product selection and seamless checkout flows.	Android, Java, REST, Payment SDKs, API Development, Spring Boot, REST
Samsung Sportsflow (Gaming)	Interactive sports companion app developed in partnership with Samsung, featuring live data feeds and gamified engagement.	Android, Java, libGDX
KNOW Suite (Hospitality)	Enterprise operations platform deployed across premium hotel chains globally; streamlined service request management.	Android, Kotlin, REST, SQLite, Java Backend, Spring Boot
G4S Javelin (Security)	Business-critical workforce security app for global field operations with offline-first architecture.	Android, Kotlin, Spring Boot, REST, AWS
Munch Ado (Food-Tech)	End-to-end food ordering and delivery platform with Android client and Spring backend integration.	Android, Java, Spring Boot, AWS

OPEN SOURCE CONTRIBUTIONS

- ▶ PagerIndicator Library — Authored and published an Android ViewPager indicator library on JitPack, enabling developers to visually represent pager state with minimal integration effort. Available at github.com/sampicks/ViewPagerIndicator
- ▶ ScreenShotView Library — Developed a lightweight Android utility library that captures device screenshots on a double-tap gesture, widely usable for QA and feedback workflows. Available at github.com/sampicks/ScreenShotView

AI/ML, GEN AI — ACTIVE LEARNING PATH

- ▶ Generative AI & LLMs: Hands-on experience with OpenAI APIs, Gemini, and LangChain — including prompt engineering and RAG pipelines. Developed and deployed AI-powered applications such as a PDF Q&A Chatbot, AI Customer Support Agent, and an E-Commerce Recommendation Engine using LLM embeddings and FAISS.
- ▶ Machine Learning: Applied knowledge of Pandas, NumPy, and Matplotlib for data analysis, model training, and evaluation on structured datasets.

EDUCATION

Master of Computer Applications (MCA)

Gautam Buddha Technical University
2011

Bachelor of Science (B.Sc.)

Lucknow University
2008

CERTIFICATIONS & RECOGNITION

- ▶ Oracle Certified — Java SE 1.7 Programmer
- ▶ HackerRank Certified — Problem Solving (Basic) | Credential ID: E3454CA142C7
- ▶ HackerRank Certified — Java Programming | Credential ID: C4D485B6F5CA
- ▶ Ideathon Participant — Nagarro (Internal Innovation Challenge)
